

Fuel Gas Conditioning

Client HDEC / DEWA
Project Jebel Ali Power and
Desalination Station
'L' - Phase II

Location Emirate of Dubai

Delivery 2006

Plant Details

4 GT Gas Pressure Reducing Trains;

-Gas Pressure Reduction Stations

-Gas Compressors

-Final Conditioning Devices

-Gas Buffer System

Total Gas Flow Rate: 140,400 kg/hr

Gas Feed Pressure: 20 to 49 barg

Required Outlet Pressure: 29 barg

Inlet Scrubber Vessels of the Gas Pressure Reduction Stations ready for delivery at Process Group International's workshop, 2006.
